

## Geographic Setting of Schools in Washington State A Classification Based on Urban-Centric Locale

The Washington State Education Research & Data Center (ERDC) conducts analyses of early learning, K-12, and higher education programs and education issues across the P-20 system. ERDC focuses on longitudinal education studies, particularly those that involve transitions across education sectors.

### *Purpose*

The purpose of this brief is to present a simplified classification of the geographic setting of schools in Washington state based on the urban-centric locale classification developed by the National Center for Education Statistics (NCES).

### *Discussion*

In 2006 the National Center for Education Statistics released a revised classification system for locale – the geographic setting of schools that incorporated geographic definitions developed by the U.S. Census Bureau.<sup>1</sup> The system includes four major categories: city, suburban, town, and rural. Cities and suburbs are further divided into categories of small, mid-size, or large. Towns and rural areas can be characterized by their proximity to an urbanized area as fringe, distant, or remote. The combination of these two sets of designations results in the twelve combinations corresponding to the locale codes used by NCES.

For many ERDC applications students are classified by characteristics of the schools they attend. Teachers can be similarly classified by the characteristics of the school where they work. To classify students and teachers by the geographic setting of their schools using twelve categories is unwieldy for display and analysis purposes, so reducing number of categories is desirable. The classification proposed here reduces the twelve original categories into five using a combination of the NCES locale code and the school's location inside or outside of a Census Bureau-defined Metropolitan Statistical Area (MSA). MSAs are counties or groups of counties with a core urban area with population of 50,000 or more. MSAs involving Washington counties are listed in Appendix A. Full definitions of all Census geography terms used in the locale descriptions that follow are included in Appendix B.

The five "Geographic Setting" categories outlined here are:

Large Metro – comprising NCES locale codes 11 and 12

Metro Suburb – comprising NCES locale code 21

Mid-Size – comprising NCES locale codes 13, 22, and 23

---

<sup>1</sup> See "A New Classificatory Scheme for Locale Codes," by Mark Schneider, Commissioner, NCES, at [nces.ed.gov/whatsnew/commissioner/remarks2006/6\\_12\\_2006.asp](http://nces.ed.gov/whatsnew/commissioner/remarks2006/6_12_2006.asp) and "Identification of Rural Locales," at [nces.ed.gov/ccd/rural\\_locales.asp](http://nces.ed.gov/ccd/rural_locales.asp).

Urban Fringe – comprising locale code 31 and locale code 41 if in a MSA

Distant – comprising local code 41 if not in an MSA and locale codes 32, 33, 42, and 43

The relationship between the five Geographic Setting categories and the NCES Locale classification is shown in Table 1.

**TABLE 1: GEOGRAPHIC SETTING CATEGORIES WITH CORRESPONDING NCES LOCALE DEFINITIONS**

<b>Geographic Setting if Inside MSA*</b>	<b>NCES Locale</b>	<b>Geographic Setting if Outside MSA*</b>
Large Metro	<b>City, Large Territory</b> (urban-centric locale code 11) Inside an urbanized area and inside a principal city with population of 250,000 or more.	Large Metro
	<b>City, Mid-size Territory</b> (urban-centric locale code 12) Inside an urbanized area and inside a principal city with a population less than 250,000 and greater than or equal to 100,000.	
Metro Suburb	<b>Suburb, Large Territory</b> (urban-centric locale code 21) Outside a principal city and inside an urbanized area with population of 250,000 or more.	Metro Suburb
Mid-Size	<b>City, Small Territory</b> (urban-centric locale code 13) Inside an urbanized area and inside a principal city with a population less than 100,000.	Mid-Size
	<b>Suburb, Mid-size Territory</b> (urban-centric locale code 22) Outside a principal city and inside an urbanized area with a population less than 250,000 and greater than or equal to 100,000.	
	<b>Suburb, Small Territory</b> (urban-centric locale code 23) Outside a principal city and inside an urbanized area with population less than 100,000.	
Urban Fringe	<b>Town, Fringe Territory</b> (urban-centric locale code 31) Inside an urban cluster that is less than or equal to 10 miles from an urbanized area.	Urban Fringe
	<b>Rural, Fringe</b> (urban-centric locale code 41) Census-defined rural territory that is less than or equal to 5 miles from an urbanized area, as well as rural territory that is less than or equal to 2.5 miles from an urban cluster.	Distant
Distant	<b>Town, Distant Territory</b> (urban-centric locale code 32) Inside an urban cluster that is more than 10 miles and less than or equal to 35 miles from an urbanized area.	
	<b>Town, Remote Territory</b> (urban-centric locale code 33) Inside an urban cluster that is more than 35 miles from an urbanized area.	
	<b>Rural, Distant</b> (urban-centric locale code 42) Census-defined rural territory that is more than 5 miles but less than or equal to 25 miles from an urbanized area, as well as rural territory that is more than 2.5 miles but less than or equal to 10 miles from an urban cluster.	
	<b>Rural, Remote</b> (urban-centric locale code 43) Census-defined rural territory that is more than 25 miles from an urbanized area and is also more than 10 miles from an urban cluster.	

\*MSA = Metropolitan Statistical Area

Geographic Setting categories and NCES Locales are shown for all Washington high schools in Appendix C.

## Appendix A: Washington Metropolitan Statistical Areas

### **Bellingham, WA Metropolitan Statistical Area**

Principal City: Bellingham

*Whatcom County*

### **Bremerton-Silverdale, WA Metropolitan Statistical Area**

Principal Cities: Bremerton, Silverdale

*Kitsap County*

### **Kennewick-Pasco-Richland, WA Metropolitan Statistical Area**

Principal Cities: Kennewick, Pasco, Richland

*Benton County, Franklin County*

### **Lewiston, ID-WA Metropolitan Statistical Area**

Principal City: Lewiston, ID

*Nez Perce County, ID; Asotin County, WA*

### **Longview, WA Metropolitan Statistical Area**

Principal City: Longview

*Cowlitz County*

### **Mount Vernon-Anacortes, WA Metropolitan Statistical Area**

Principal Cities: Mount Vernon, Anacortes

*Skagit County*

### **Olympia, WA Metropolitan Statistical Area**

Principal City: Olympia

*Thurston County*

### **Portland-Vancouver-Beaverton, OR-WA Metropolitan Statistical Area**

Principal Cities: Portland, OR; Vancouver, WA; Beaverton, OR; Hillsboro, OR

*Clackamas County, OR; Columbia County, OR; Multnomah County, OR; Washington County, OR;*

*Yamhill County, OR; Clark County, WA; Skamania County, WA*

### **Seattle-Tacoma-Bellevue, WA Metropolitan Statistical Area**

Principal Cities: Seattle, Tacoma, Bellevue, Everett, Kent, Renton

Seattle-Bellevue-Everett, WA Metropolitan Division

*King County, Snohomish County*

Tacoma, WA Metropolitan Division

*Pierce County*

### **Spokane, WA Metropolitan Statistical Area**

Principal City: Spokane

*Spokane County*

### **Wenatchee, WA Metropolitan Statistical Area**

Principal City: Wenatchee

*Chelan County, Douglas County*

### **Yakima, WA Metropolitan Statistical Area**

Principal City: Yakima

*Yakima County*

## Appendix B: Selected Census Geography Definitions

**Census Block** - A geographic area bounded by visible and/or invisible features shown on a map prepared by the U.S. Census Bureau. A block is the smallest geographic entity for which the Census Bureau tabulates decennial census data.

**Metropolitan Statistical Area** – geography defined by the U.S. Office of Management and Budget (OMB) and used by the U.S. Census Bureau and other federal agencies for collecting and publishing statistics. A county or group of counties designated as metropolitan contains a core urban area of 50,000 or more population as well as any adjacent counties that have a high degree of social and economic integration with the urban core. Metropolitan statistical area designations are updated annually.

**Principal city** – The largest city in each metropolitan statistical area is designated a "principal city." Additional cities qualify if specified requirements are met concerning population size and employment. The title of each metropolitan statistical area consists of the names of up to three of its principal cities and the name of each state into which the metropolitan or micropolitan statistical area extends.

**Rural** - All territory, population, and housing units located outside of urbanized areas and urban clusters.

**Urban** - All territory, population, and housing units located within urbanized areas and urban clusters.

**Urbanized Area (UA)** - A densely settled area that has a census population of at least 50,000. A UA generally consists of a geographic core of block groups or blocks that have a population density of at least 1,000 people per square mile, and adjacent block groups and blocks with at least 500 people per square mile. A UA consists of all or part of one or more incorporated places and/or census designated places, and may include additional territory outside of any place. See central place, extended place, urban, urban cluster.

**Urban Cluster (UC)** - A densely settled area that has a census population of 2,500 to 49,999. A UC generally consists of a geographic core of block groups or blocks that have a population density of at least 1,000 people per square mile, and adjacent block groups and blocks with at least 500 people per square mile. A UC consists of all or part of one or more incorporated places and/or census designated places; such a place(s) together with adjacent territory; or territory outside of any place. See central place, extended place, urban, urbanized area.

## Appendix C: Washington High School Classification

**TABLE C-1: GEOGRAPHIC SETTING CATEGORIES WITH CORRESPONDING NCES LOCALE DEFINITIONS FOR WASHINGTON HIGH SCHOOLS.** (All schools in a district are in same categories unless otherwise indicated.)
